

Faculty Assembly Resolution 2014-2

Incentive opportunities, including the Research Incentive Compensation Plan and other incentive programs at the SoPH, are not well understood by the faculty.

We assert that the criteria and rules of any incentive opportunity must be known in order to provide any effective incentive.

We ask, therefore, that the administration provide to the faculty a clear and comprehensive statement, at the beginning of each fiscal year, of the criteria, provisions, and rules by which these rewards will be allotted at the end of the year.
