Dear Dr. <Reviewer Last Name>:

The < Program Name> Program in the School of Public Health of the Louisiana State University of Health Sciences Center in New Orleans is considering Dr. <Last Name> for promotion to <rank and track>. Dr. <Last Name> is currently an <rank and track> and has held this position since <first year in position>.

All candidates for academic advancement within the School of Public Health require letters of recommendation; the required sources of recommendation differ with the track and rank proposed for the candidate. You are being consulted to provide a frank and candid assessment of the scholarly and other professional accomplishments of Dr. <Last Name>. Our advancement review process considers not just the research and publication record of the candidate, but also his/her teaching, professional service and administrative accomplishments. Please comment on the sum of academic and professional activities of this candidate.

Of greatest importance is the stature of the candidate in his/her scientific or professional community. A specific and critical evaluation of the impact of his/her work will be more useful to the departmental and school committees than will general statements of praise. However, a detailed description of the candidate's work is not needed. In particular, note whether or not the candidate would qualify for the same advancement at your institution or at others with which you are familiar. A copy of the candidate's Curriculum Vitae, teaching portfolio and three publications representative of the candidate's scholarly work are enclosed for your review. Additionally, we ask that you review our guidelines and criteria for faculty advancement, focusing on the requirements for achievement for this specific proposed advancement. The guidelines and criteria can be referenced at

[http://sph.lsuhscc.edu/Websites/lsupublichealth/images/pdf/faculty/Gudelines\\_Criteria.pdf](http://sph.lsuhscc.edu/Websites/lsupublichealth/images/pdf/faculty/Gudelines_Criteria.pdf)

I appreciate the time that authoring these recommendations requires and gratefully acknowledge the importance they play in the peer-review character of academic advancement. Please provide me with your response by August 1, 2017 so that we can comply with our institutional deadlines. Please provide your response on *institutional letterhead as original hard copy correspondence*, since this must be submitted with the original "promotions packet" for the candidate. You are not required to provide a lengthy description of your own qualifications nor

your own Curriculum Vitae. Please note that while our Faculty Handbook states that letters of recommendation are added to the “packet” after the candidate has signed off on the promotions file, the candidate may have access to your correspondence upon specific request. Thank you for your effort.

Please mail your signed review on institutional letterhead to:

ATTN: Dr. Donald Mercante  
Office of Academic Affairs  
LSU Health Sciences Center  
2020 Gravier St., 3<sup>rd</sup> Floor  
New Orleans, LA 70471

Sincerely yours,

Donald E. Mercante, PhD  
Professor of Biostatistics and Associate Dean for Academic Affairs
