[^]State hospital registries were unable to transmit 2022 cases to the LTR until their vendor provided a 2022 software update. While this update has now been released by all state vendors, CNExT registries experienced issues requiring another vendor update. Thus hospital registries should submit their COMPLETED January-April 2022 cases no later than the end of November 2022.

Please notify your regional director/coordinator *immediately* should any submission issues arise. In accordance with the aforementioned policy, failure to meet this submission schedule will be *handled on a case-by-case basis* by your regional director/coordinator and *may result* in a \$45 per case abstraction fee or the actual cost of screening, abstracting, coding, and editing, whichever is greater levied by the LTR in agreement with the LTR's Legislative Rule (LAC 48:V. Chapter 85).
