

LSU School of Public Health's Mission

The LSU School of Public Health's mission states that our goal is for "a healthier Louisiana with a workforce addressing the core functions of public health, equipped with data and knowledge, and supported by LSU's faculty, students and staff." Your education here will give you hands-on, practical experience to make the world a healthier place.

Gender & Diversity

One of the goals of the LSU School of Public Health is to prepare students to address the changing needs of society, diverse in economic status, race/ethnicity, religion, sexual orientation and sexual identity.

With a population that reflects that of the state of Louisiana, we are training the next generation of Public Health workers in a way that reflects the community we call home.

Student - Teacher Ratio

Are you looking for a place that will know your name and not treat you just like another number? That's exactly what you'll get at the LSU School of Public Health.

With two students to every faculty member, you will be learning in an environment where everyone knows your name and fosters your passions.

Environmental and Occupational Health Sciences

MPH

Environmental and Occupational Health Sciences

Overview

In the ENHS program, our students explore the influences of the natural and man-made environment on human health outcomes and the technical interventions needed to protect the environment and the public. Some examples of environmental influences on the public's health include:

- The direct human health impacts of global climate changes
- Pesticides in foods
- Quality of water
- Air pollutants
- Work-related exposures and injuries
- Natural and man-made disasters

The ENHS Program was designed to provide the scientific and public health training required to enter and to succeed in a variety of technical careers in governmental and private sectors committed to protecting the environment and to improving the health of workers and the public.

Admission Requirements

- A baccalaureate degree (for MPH) or a Masters degree (for PhD) from an accredited college or university
- A suggested grade point average of 3.0 for undergraduate and graduate work based on a 4-point scale
- Official Graduate Record Exam (GRE) or Medical College Admission Test (MCAT) score may be submitted but is not required for MPH. The GRE is a requirement for all PhD programs
- Satisfactory standing at the most recent educational institution attended
- Please check out our website for more

Scholarships

The School of Public Health and the ENHS program make scholarships available for incoming master-level students as funding permits. These are competitive based on admission information and will be awarded to begin each fall semester to new students enrolling for the first time in the fall OR students who enrolled as a new student in the spring or summer term of the same year.

Additionally, the ENHS program, and its faculty, generate several funding opportunities that allow students to apply for paid student work. For more information about these opportunities, visit <https://sph.lsuhsoc.edu/jobs>

Please Note: We will accept applications from US applicants through July 1, and from international applicants through May 1, for fall admission. However, the priority deadline to receive full consideration for scholarships is February 1.

Important Dates

Fall Semester:

- Scholarship priority: February 1
- MPH for International Students: May 1
- MPH: July 1

Spring Semester:

- MPH for International Students - September 1
- MPH: November 1

Summer Semester:

- MPH for International Students: February 15
- MPH: April 1

How to Apply

All applications must be submitted through SOPHAS by the application deadline. For additional information about applying as an International Student, you can go to our website.

All application packets must include:

- SOPHAS application & application fee
- Statement of Purpose and Objectives
- Resume or CV
- Letters of recommendation (3)
- International Students may have additional requirements.
