To round out our week of the favorite classes offered here at LSU School of Public Health, we spoke with Brittney Moore. This MPH student just completed her first year in the Behavioral and Community Health program and found that she really loved the class Community Analysis and Ecology.

"In this course, we studied the ecological factors that contribute to health outcomes and what we can do as public health professionals to plan and create sustainable interventions with these factors in mind," she says. "I really enjoyed being able to incorporate my research interests into the coursework."

Olivia Sugarman, Ph.D. student, tells us of her favorite class that "I hadn't decided if I was going to pursue a Ph.D. or not, but I quickly felt that for the first time, I was exactly where I was supposed to be at exactly the right time."

The class? Advanced Community Analysis, Ecology, and Health disparities. "I found that my professor, classmates, and I all cared deeply about public health, but were especially passionate about making sure communities were represented and invested in public health solutions," says Olivia. "I learned not just information and skills about how to be a good public health practitioner, but WHY public health matters."

Meaghan Donewar, seen here with her study buddy, has really liked the classes where you work through the process of figuring out a Public Health problem and coming up with a solution. That might be why her favorite class is Advanced Community Analysis, Ecology, And Health Disparities here at LSU School of Public Health.

"Throughout the class we gained experience developing an intervention and evaluation plan then write a systematic review," she tells us. As for her latest class project? "I'm planning to submit for publication!"

Dietary monitoring and control using Augmented Reality (AR) Glasses for colorectal cancer prevention in African Americans R21

Role: Principal-Investigator

Agency: NIH/NCI

Amount: \$275,000

7/1/2023- 6/30/2025

Development of ancestry-integrated polygenic risk scores by adopting genetic ancestry composition and SNP-SNP interactions(PI: Lin) R01

Role: Investigator

Agency: NIH/NCI

Amount: \$1,500,000

7/1/2023- 6/30/2028

Dietary Pattern Measures Using Augmented Reality (AR) Glasses for Colorectal Cancer High-Risk African American Population

Role: Principal-Investigator

Agency: Interinstitutional Cancer Research Funding Program

Amount: 200,000

9/1/2022-8/31/2023

Heavy metal exposure and its interplay with genetic predisposition associated with breast cancer risk. (PI: Lin)R01

Role: Investigator

Agency: DOD

Amount: \$1,975,033

10/1/2023-9/30/2027

Using FeNO Test Monitoring as a Health Risk Communication Tool to Promote Smoking Cessation for Smokers Diagnosed with Asthma and/or Chronic Obstructive Pulmonary Disease(PI: Celestin)

Role: Co-Investigator

Agency: Louisiana State University Health Sciences Center – New Orleans (LSUHSC-NO)

10/1/2022-1/31/2025

Oxidative stress biomarkers and their interactions with genetic variants associated with Prostate Cancer Aggressiveness and Racial Disparity (PI: Lin) R21

Role: Investigator

Agency: NIH/NCI

Amount: \$150,000

7/1/2023- 6/30/2025

The efficacy of the prenatal genetic testing (PGT) app in improving high-risk pregnant Latinas' decision-making(PI: Chen) R01

Role: Site Principal Investigator

Agency: NIH/National Institute on Minority Health and Health Disparities (NIMHD).

Amount: 1,420,000

1/1/2023-12/30/2027

Collaborative Research: Elements: Developing Remote and Secure Human Motion-Controlled Robotic Arm Platform (PI: Wang)

Role: Investigator

Agency: NSF

Amount: 200,000

8/1/2022-7/31/2024

Dynamic Interplay of Social Contextual Factors and Epigenetic aging on Women Obesity in Disadvantaged Communities(PI: Hsu) R01

Role: Investigator

Agency: National Institute on Minority Health and Health Disparities (NIMHD) for the Social Epigenomics Research Focused on Minority Health and Health Disparities Award.

Amount: 3,262,676

7/1/2022-6/30/2027

Association Between Sugar Intake from Sugar-Sweetened Beverages, Obesity, and Risk of Vitamin D Insufficiency and Deficiency Among Asian American

Role: Principal-Investigator

Agency: P50 Center for Asian Health Promotion and Equity (CAHPE)/ NIH/NIMHD

Amount: 25,000

2/1/2022-1/31/2023

Project Title: Implementation of Interventions to Improve Tobacco Cessation in Healthcare (PITCH) for Rural Populations(PI: Celestin),

Role: mentor

Agency: the Louisiana Clinical and Translational Sciences Center (LACaTS) Roadmap Scholars program
