

CURRICULUM VITAE

Yu-wen “Angela” Chiu, DrPH, MPH

Current Title: Assistant Professor

Business Address: Louisiana State University Health Sciences Center-New Orleans
School of Public Health
2020 Gravier Street, 3rd Floor, New Orleans, LA 70112

Business Telephone: 504-568-5863, fax: 504-568-5701

e-mail Address: ychiu@lsuhsc.edu

Citizenship: United States of America

Education:

Bachelor of Science	1988-1992	Kaohsiung Medical University, Kaohsiung, Taiwan Bachelor of Science degree in Public Health
Master of Public Health	1994-1996	Tulane University, School of Public Health and Tropical Medicine Department of Health Systems Management
Doctor of Public Health	1997-2002	Tulane University, School of Public Health and Tropical Medicine Doctor of Public Health Concentration: Health Systems Management, and Health Economics. Dissertation topic: Determinants of Rate of Uninsured Across the MSAs: a Pooled Cross-Sectional and Time- Series Analysis

Additional Training

- Practical Grant Writing and Evaluation. The Grant Institute. Tulane University, New Orleans. July, 2004
- CPHIMS Review Course. Healthcare Information and Management Systems Society (HIMSS), Orlando, FL. February 24, 2008
- The Healthcare Cost and Utilization Project (HCUP) Training. The 136th APHA Annual Meeting & Exposition, San Diego, CA, October, 2008
- SEER/Medicare Data for Research Training. The National Cancer Institute. May, 2008 and September, 2011

- International Society for Pharmacoeconomics and Outcomes Research (ISPOR) 18th Annual Meeting, May 2013. Patient-Centered Outcomes workshop
- Measurement, Design, and Analysis Methods for Health Outcomes Research Program, Harvard T.H. Chan School of Public Health, September 24-26, 2018
- Systems Thinkings in Public Health Online Course, Johns Hopkins University, January 26, 2024

Academic, Professional, and Research Appointments

2004 to present	Assistant Professor School of Public Health, Louisiana State University Health Sciences Center-New Orleans.
2015 to 2018	Evaluation Specialist Increasing the Implementation of Evidence-Based Cancer Survivorship Interventions to Increase Quality and Duration of Life among Cancer Patients, Louisiana Cancer Prevention and Control Program, School of Public Health, Louisiana State University Health Sciences Center-New Orleans.
2014 to 2020	Evaluation Specialist Gulf States Young Breast Cancer Survivors Network, the Louisiana Comprehensive Cancer Control Program, School of Public Health, Louisiana State University Health Sciences Center-New Orleans.
2011 to 2014	Evaluation Specialist Survivorship Support in Young Women with Breast Cancer in South Louisiana, the Louisiana Comprehensive Cancer Control Program, School of Public Health, Louisiana State University Health Sciences Center-New Orleans.
2005 to 2008	Member The Governor's Initiative to Build a Healthy Louisiana. Governor's Office and Louisiana Department of Health and Hospitals State Epidemiological Workgroup
2008 to 2009	Economic Analyst The Louisiana FIT Colon Program (FITCo)
2002-2004	Project Manager School of Public Health, Louisiana State University Health Sciences Center-New Orleans.
1992-1994	Research Assistant School of Public Health, National Taiwan University, Taipei, Taiwan.

Membership in Professional Organizations:

- AcademyHealth
- Healthcare Information and Management Systems Society
- American Public Health Association
- American Society for Health Economists
- International Health Economics Association
- International Society for Pharmacoeconomics and Outcomes Research (ISPOR)
- American Association for Cancer Research

Awards and Honors:

- Dr. Allen Copping Excellent in Teaching Award, May 2012
- The 2018 American College of Physicians (ACP) Quality Champion Award

Teaching Experience and Responsibilities

School of Public Health, Louisiana State University Health Sciences Center

Curriculum Development/Implementation

- Review curriculums of Health Policy and Systems Management programs in the peer institutes and develop program competencies in preparation for school accreditation.
- Develop and periodically review the curriculum objectives, content, and implementation for Health Policy and Systems Management program.
- Recommend curriculum revisions in accordance with school mission, strategic plan, and national accreditation guidelines.
- Review, approve, and monitor objectives, competencies and content for program and courses in the Curriculum Committee.
- Develop and review policies to enhance quality of education in the school – Policy and Procedure Workforce

Creation of Enduring Teaching Materials

- Developed School of Public Health core course: “Principles for Population-Based Management”
- Developed School of Public Health core course: “Health Services Administration and Management” materials
- Developed online asynchronous School of Public Health core course: “Health Services Administration and Management” materials
- Developed online asynchronous “Fundamentals of Health Analytics” materials for BSPH program
- Developed “Healthcare Economics and Economic Evaluation of Healthcare” course materials
- Developed “Methods in Health Care Quality” course materials
- Developed “Principles of Healthcare Quality” course materials
- Developed “Health Outcomes Research” course materials

Formal Course Responsibilities:

BSPH 4604 Fundamentals of Healthcare Analytics [3 Credits] 2023 to present.

Fundamentals of Healthcare Analytics provides foundational analytic skills and knowledge in all aspects of health care administration. The course will introduce the concepts, models, and techniques in forecasting, designing, and analyzing health care systems and programs. The course will include how to use different analytic tools to transform data into useful information and report the health data to stakeholders. Students will have the opportunity to explore healthcare data through class exercises, individual activities, and online discussion forums. Prerequisites: BSPH 3302 and BSPH 3600

HPSM 6268 Health Services Administration and Management [3 Credits] 2007 to present.

This course is designed to provide Public Health and Health Professional students with an introduction to the skills needed to manage and lead health care and public health programs, organizations and systems with an emphasis on planning and execution. The key activities (planning, deciding, communicating, controlling), competencies (conceptual, technical, interpersonal, informational, decisional) and obligations (to individuals, the public, third parties, employers and profession) and the disciplines of resource management (human, organizational, financial) and quality and cost management will provide a theoretical and practical framework for the analysis of cases from the public and private sectors. The course is focused on what Public Health and Health professionals need to know in all areas of practice today and includes overviews of the topics, case presentations, and study questions.

HPSM 6269 Healthcare Economics and Economic Evaluation of Healthcare [3 Credits] 2007-2008, 2013 to present.

The purpose of this course is to give students an overview of the major economic considerations in the healthcare industry and to demonstrate how economic ideas are crucial to an understanding of the functioning of the health care system from both policy (external) and health care management (internal) points of view. There will be a strong emphasis both on economic theory and on empirical studies of the various topics and on economic evaluation of health care programs including cost effectiveness, benefit and utility analysis.

HPSM 6272 Methods in Health Care Quality [3 Credits] 2007-present

This course is an in-depth presentation of methods and techniques for evaluating, monitoring, and improving the quality of healthcare. General approaches to the measurement of healthcare quality will be presented first. Report cards and provider profiles will then be discussed. After discussion of visual display of information, topics in statistical process control will be discussed in detail. Specific issues in healthcare measurement will then follow. A session will be devoted to patient satisfaction surveys. Additional sessions will concentrate on functional status measurement. Prerequisite: BIOS 6100.

HPSM 6271 Principles of Health Care Quality [3 Credits] 2010-2012

This course will serve as a survey of the major concepts of quality in healthcare and the basic techniques used in planning, controlling and improving quality in healthcare in order to equip students to understand the multiple dynamics at work in quality issues.

HPSM 6225 Health Outcomes Research [3 Credits] 2009

The purpose of this course is to help students understand outcomes research and to provide background on the basic tools used in outcomes studies. It will also enable students to critically review and use outcomes data for clinical decision-making as well as health care program planning and evaluation.

HPSM 6288 Health Care Policy and Law [3 Credits] 2003- 2006, Course co-instructor

This course explores the formation, implementation and evaluation of health policy/law and the impact of the political process on the delivery of health services.

Guest Lectures:

EPID 6226 Design and Analysis [3 Credits] 2023, Guest Speaker

“Health Outcomes Assessment” Provide overview on design and measurement for health outcomes in population health management.

PUBH 6500 Essentials of Public Health [3 Credits] 2013, Guest Speaker

“Introduction of Health Services Research” Provides overview on the basis, methodology, of health service research for public health students.

BCHS 6213 Community Analysis, Ecology and Health Disparity [3 Credits] 2013, Guest Speaker. “Assessing Health Outcomes” Provide overview on design and measurement for health outcomes.

BCHS 6215 Monitoring and Evaluation [3 Credits] 2004-2012, Guest Speaker

“Economic Evaluation: Cost-benefit and Cost-effectiveness analysis”

Provides overview on the basis, methodology, and application of economic evaluation for public health students.

PUBH 6600 Culminating Experience course [3 Credits] 2015-2018 , Panelist

Graduate Students Trained:

Notes:

* *Best Oral Presentation Award for the Capstone Day*

** *Tulane University*

Research and Scholarship:

Grants & Contracts Funded:

Vitamin B2 Status and Total Homocysteine Levels

July 1, 2003 - June 30, 2005

Role on Grant: Co-investigator (5%)

PI: Chuang, C-Z

American Heart Association

Total direct and indirect costs: \$100,000

The Louisiana FIT Colon Program (FITCo)

July 1, 2008 - June 30, 2010

Role: Economic analyst (20% FTE)

PI: Williams, D
State of Louisiana
Total direct and indirect costs: \$1,8500,000

Survivorship Support in Young Women with Breast Cancer in South Louisiana
Sept 30, 2011 - Sept 29, 2014
Role on Grant: Evaluation Specialist (10% FTE)
PI: Williams, D
Centers for Disease Control and Prevention
Total direct and indirect costs: \$1,012,986

Examining the Access and Quality of Care in the Latino Community in New Orleans
October 1,2013 - September 30, 2014
Role on Grant: Principal Investigator
LSUHSC SPH Seed Grant
Total direct and indirect costs: \$ 14,982

Increasing Awareness of and Support for Young Women with Breast Cancer in the Gulf
South (DP14-1408)
Sept 30, 2014 - Sept 29, 2019
Role on Grant: Evaluation Specialist (10%)
PI: Williams, D
Centers for Disease Control and Prevention
Total direct and indirect costs: \$2,200,000

Increasing the Implementation of Evidence-Based Cancer Survivorship Interventions to
Increase Quality and Duration of Life among Cancer Patients,
Sept 30, 2015 - Sept 29, 2018
Role on Grant: Evaluation Specialist (15%)
PI: Williams, D
Centers for Disease Control and Prevention
Total direct and indirect costs: \$1,024,416

Retrospective Observational Study Identifying Estimated Costs Associated with the Patient
Journey, Total Healthcare Resource Utilization and Wasted Resources Due to Repeat
Biopsies
Role on Grant: Co-Investigator (15%)
PI: Culbertson, R
Intuitive Surgical Inc.
Total direct and indirect costs: \$90,000
