Feb 10, 2025

NEWS

- For any new grant issued, and for all existing grants to IHEs retroactive to the date of issuance of this Supplemental Guidance, award recipients are subject to a 15 percent indirect cost rate. This rate will allow grant recipients a reasonable and realistic recovery of indirect costs while helping NIH ensure that grant funds are, to the maximum extent possible, spent on furthering its mission. This policy shall be applied to all current grants for go forward expenses from February 10, 2025 forward as well as for all new grants issued. We will not be applying this cap retroactively back to the initial date of issuance of current grants to IHEs, although we believe we would have the authority to do so under 45 CFR 75.414(c). [More Information](#).
- We are thrilled to announce the launch of the READ (Research, Evaluation, Analysis, and Design) Center at the LSU School of Public Health (SPH). This center brings together all SPH faculty, staff, and students to offer comprehensive services supporting research and community health initiatives in Population Health. For more details, please visit our [website](#).

Workshops, Webinars, and Short Courses:

- OHRP free online human subjects research training program in 5 lessons with completion certificates for NIH-funded human subjects research, investigators, and key personnel. [Link](#). **Expiration date: 11/30/2026.**

Grant Opportunities:

- We will update the funding opportunities once decisions and guidances are provided by authorities.

If you have anything for ORPH to share with faculty, please email us at
